DETAILED ACTION

Information Disclosure Statement

The information disclosure statement filed 10/14/2003 fails to comply with 37 CFR 1.98(a)(3) because it does not include a concise explanation of the relevance, as it is presently understood by the individual designated in 37 CFR 1.56(c) most knowledgeable about the content of the information, of each patent listed that is not in the English language. It has been placed in the application file, but the information referred to therein has not been considered.

Allowable Subject Matter

Claims 1-8 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record does not teach nor suggest, in the claimed combination, a relay structure comprising two parallel contact springs (2a, 2b) which each close or interrupt the electric circuit between a first and a second relay contact (3, 4) and whose one end is connected in a conducting fashion with the first relay contact (3) and whose other free end (5a; 5b) closes or interrupts the electric circuit in a first end position and a second end position of the contact springs (2a, 2b), respectively, and with an armature (11) which can be adjusted by means of a magnetic field, whose poles can be changed, for deflecting the contact springs (2a, 2b) into the respective end position, characterized in that a leaf spring (17) is centrally pivotally disposed on the armature (11) or its actuator

(14) whose two free ends (18a, 18b) bias the two contact springs (2a, 2b) with force into the first end position.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
